THIS COMPANY, organized in 1846, on a system entirely *Mutual*, furnishes Insurance in all the various forms, and to meet all the various contingencies for which Life Insurance is desired, at the *actual cost* to the policy holder. There is no *Stock* or *Guaranty Fund* to absorb the profits, but all the *surplus* is annually allocated to the policy holders, in proportion to the amount of the premium they pay, and may be appropriated to the payment of *renewal* premiums, after the first four years.

Some of the Important Reasons why this Company should be Preferred.

It offers *abundant* SECURITY, in a large accumulated Fund, derived from Premiums, amounting to over *Seven Millions of Dollars.*

Its ECONOMY in the management of business permits large dividends to policy holders, which have averaged **50 per cent.** per annum.

Its DIVIDENDS are ANNUAL, and are paid *during the life* of the assured, in cash to those who pay their premiums in cash, or applied in canceling the notes of those who pay their premium partly by note. Over $293,300 have been thus refunded to policy holders during the past year.

It is prompt in PAYMENT OF LOSSES.

It ACCOMMODATES the insured in the settlement of their premiums on *Life* policies, by receiving a note for *one-half*, when the premium amounts to $50 or more,—thus furnishing insurance for double the amount, for nearly the same *cash* payments, as is required in an "ALL CASH COMPANY."

Much has been recently written and extensively circulated by a prominent Life Insurance Company, condemning the *credit* or half-note system, as practiced by this and some other prosperous Companies. The illustrations accompanying those attacks explanatory of the system, exhibit either an inexcusable ignorance of the plan, or a wanton effort to mislead and prejudice those who seek insurance upon the most *equitable and economical plan.* The explanations thus published to illustrate the *half-note* system do not, it is believed, apply to *any* Company in the country, certainly not in the least degree to the CONNECTICUT MUTUAL, in which there cannot be an accumulation of premium notes beyond *four* half premiums; as the dividends apply to cancel those notes after the first *four* payments. Parties are not, however, *required* to give a premium note to this Company; but, if preferred, may pay *all cash*, in which case, their dividends are applied to a reduction of the premium.

The Directors have ordered the dividend of 1861 to be paid during the current year, as the renewals become due and are paid—by reduction of the premium of those who have paid all cash, or canceling the notes of those who have given notes for one-half.

ROYAL LIFE INSURANCE BRANCH,

No. 226 Walnut Street, Second Floor.

Independent of the above sums, the **"ROYAL" Life and Endowment Fund** amounts to over

In Gold, $2,000,000.

This Fund is, in proportion to the risks it represents, as large as the funds of the best mutual and other life insurance establishments, yet the Company offers as additional security to life insurers its entire capital and assets.

THE ROYAL LIFE OFFICE insures on the lowest terms compatible with absolute security. Its premiums are not higher than those of mutual and other companies.

THE ROYAL LIFE exposes the insured to none of the dangers inherent in the mutual system.

The **Dividends** of the **"ROYAL,"** hitherto amounting to 2 per cent. per annum on the sum insured, are the highest ever continuously paid by any reliable mutual company, while the advantages offered by the **"ROYAL"** are tantamount to non-forfeiture of life policies.

Policies can be surrendered to the Company at their equitable value, or new policies granted in lieu thereof, without further payment of premiums.

Further information may be had by personal application, or by letters, directed to the

JAYNE'S LIQUID HAIR DYE, also, AMERICAN HAIR DYE, (in powder,) each of which will change the Hair from any other color to a beautiful Black.

These Medicines have now been before the public for thirty years, and during this long period the demand for them has been constantly increasing, and their reputation gradually spreading, until their great curative powers have become known and thoroughly appreciated in all quarters of the world. While, however, the Proprietor is fully persuaded that they will give very GENERAL, if not UNIVERSAL satisfaction, it is not intended that they are "CURE ALLS," nor that they are, in all cases and under all circumstances, absolutely infallible. Yet he can truly say, after thirty-six years' experience, in an extensive and diversified practice, and with a full knowledge of the medical qualities and effects of the component parts of each of the above-named articles, that there is no combination of medicines which have been so generally successful as these, in removing the various diseases for which they are severally recommended.

It should be borne in mind, too, that the popularity of these "Family Medicines" is not confined to the illiterate and credulous, but innumerable persons of intelligence and character, occupying the most prominent stations in society,—too honest to impose upon others, and too sagacious to be imposed upon themselves,—not only use, but speak of them in the highest terms of praise, for the uniformity of their success in subduing diseases.

THESE MEDICINES ARE PREPARED ONLY BY
